

Download A Reference Grammar Of Modern Hebrew

Such a reference book of Modern Hebrew has been needed for a long time. The only previous reference grammar in English, by Lewis Glinert, while an excellent work, is expensive, very technical, very heavy on syntax, and often outdated. This new volume is easy to use, and includes tons of useful and helpful information. It is not a comprehensive grammar with every last detail, but will still be of great value to the student of Hebrew, from the beginner to the advanced level. Recommended.
