

Download Anatomy Review Urinary System

Answers

The urinary system consists of two kidneys, two ureters, a urinary bladder, and a urethra. The kidneys alone perform the functions just described and manufacture urine in the process, while the other organs of the urinary system provide temporary storage reservoirs for urine or serve as

The Human Anatomy and Physiology course is designed to introduce students pursuing careers in the allied health field to the anatomy and physiology of the human body. Anatomy and Physiology resource site. Includes photos, diagrams and lecture notes and has a comprehensive guide to the cat dissection. Links to Useful Web-Sites for ANATOMY: Down-loadable e-Books of the Lecture Outlines by Professor Fink can be purchased from the WLAC Bookstore at:
