[The Civil Services have been, and will continue to remain, the most important instrument of the State to discharge its obligations to the citizens regardless of the changing and evolutionary nature of the philosophy of the State as an institution. By employing plate tectonics as its central and unifying theme, Exploring Earth takes an innovative, integrative, and process-oriented approach in presenting the traditional breadth of physical geology topics. Geology: Geology, the fields of study concerned with the solid Earth. Included are sciences such as mineralogy, geodesy, and stratigraphy. An introduction to the geochemical and geophysical sciences logically begins with mineralogy, because Earth's rocks are composed of minerals—inorganic elements or
