

# Download Black Business Success Model

Black business owners are creating businesses at a higher rate than any other demographic, according to FORTUNE.com. The numbers also showed that those businesses had less long-term potential and were less likely to continue operations, due to lack of financial resources or because their environments were less favorable for business promotion. Black Business Success You are what you think success model tailored specifically to Black entrepreneurs. Additionally, this thesis will gather research from primary sources (Black entrepreneurs) on their experiences as minority business Black-Owned Banks Struggle To Stay Out Of The Red
