

Download Business Requirement Gap Analysis

Gap analysis is the technique to identify the area of improvement in any process ranging from Business to technology. The areas of improvement doesn't necessarily mean any new enhancement, it is either about finding a gap between what is expected and what is really done. Business analysis is a research discipline of identifying business needs and determining solutions to business problems. Solutions often include a software-systems development component, but may also consist of process improvement, organizational change or strategic planning and policy development. The Gap Analysis Templates made available for free download can help you measure or compare the potential and actual performance of your organization. Developing a skill gap analysis typically involves defining the skills and knowledge required to complete a task and then comparing a person's current level to that requirement.
