

Download Cancer Chemotherapy A Veterinary Handbook

Chemotherapy (often abbreviated to chemo and sometimes CTX or CTx) is a type of cancer treatment that uses one or more anti-cancer drugs (chemotherapeutic agents) as part of a standardized chemotherapy regimen. A cancer diagnosis can be overwhelming. Find out about coping with the emotional, practical and physical effects. Caring for Pets with Cancer: Three Rules for Managing the Cancer Patient - by Dr. Kevin Hahn, Gulf Coast Veterinary Specialists. Rule 1: Get a diagnosis. Cancer can spread from its original site by local spread, lymphatic spread to regional lymph nodes or by hematogenous spread via the blood to distant sites, known as metastasis.
