My 100 favorite female comic book characters. Revised list. My top 100, in order, starting with my #1. List items You don't need to do any calculations to notice that, while there have been a spate of comic book movies in the last few years, those movies have all been rather male-centric. The following is a list of superheroines (female superheroes) in comic books, television, film, and other media. Each character's name is followed by the publisher's name in parentheses; those from television or movies have their program listed in square brackets, and those in both comic books and other media appear in parentheses. The way Alan Davis drew her made her almost irresistible. She's also one of the sweetest and easiest characters to like that I've ever seen in comics.
