The timeworn and pedestrian answer is simply "to get to the other side." Here are some creative and original answers: The chicken crossed the road. Introduction. A DESERVEDLY HUMBLE DISCLAIMER. Compared with my description of science in the "overview of scientific method" page, this "details of scientific method" page is intended to be more complete, but not fully complete. Whenever you are thinking creatively-and-critically about ways to increase the quality of life (or avoid a decrease in quality) you are actively involved in problem solving. Naturalistic experiences are those initiated spontaneously by children as they go about their daily activities. These experiences are the major mode of learning for children during the sensorimotor period.
