

Download Contemplative Science Where Buddhism And Neuroscience Converge B Alan Wallace

Provocative, challenging, and engaging, *Contemplative Science* should be read by all serious students of the mind, scientists, contemplatives, and religious scholars alike. B. Alan Wallace spent fourteen years as a Buddhist monk, ordained by H. H. the Dalai Lama. He then earned his undergraduate degree, summa cum laude, in physics and the philosophy of science at Amherst College, and his doctorate in religious studies from Stanford University. La notion d'éveil spirituel (ou encore « illumination [1] » et « réalisation de soi » ou simplement « éveil »), communément associée au bouddhisme et à l'hindouisme, désigne un état de conscience supérieur dans de nombreuses religions et philosophies [2] et l'aboutissement d'une voie religieuse ou spirituelle. Port Manteaux churns out silly new words when you feed it an idea or two. Enter a word (or two) above and you'll get back a bunch of portmanteaux created by jamming together words that are conceptually related to your inputs.
