JSTOR is a digital library of academic journals, books, and primary sources. Dr. Hali Healy is a lecturer at UJ in the Department of Anthropology and Development Studies. She has co-authored and co-ordinated transdisciplinary work between international scholars and activists on sustainable development. Design theory is a subfield of design research concerned with various theoretical approaches towards understanding and delineating design principles, design knowledge, and design practice. Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.
