

# Download Data Model Teaching Preschoolers Autism

The Early Start Denver Model Curriculum Checklist for Young Children with Autism is used to comprehensively assess the skills of toddlers and preschoolers with autism spectrum disorder across multiple developmental domains and to establish individualized teaching objectives. From leading authorities, this state-of-the-art manual presents the Early Start Denver Model (ESDM), the first comprehensive, empirically tested intervention specifically designed for toddlers and preschoolers with autism spectrum disorder. Background. Autism spectrum disorders (ASD) are a group of biologically based chronic neurodevelopmental disorders characterized by impairments in two major domains: 1) deficits in social communication and social interaction and 2) restricted repetitive patterns of behavior, interests and activities. Based on the *You Are A Social Detective!* book by Michelle Garcia Winner and Pamela Crooke of Social Thinking. The app teaches children with ASD how to improve their everyday social interactions by developing their social thinking.
