About Daughters of the Storm. Five very different sisters team up against their stepbrother to save their kingdom in this Norse-flavored fantasy epic—the start of a new series in the tradition of Naomi Novik, Peter V. Brett, and Robin Hobb. In Daughters of the Storm, Kim Wilkins, a masterful storyteller, presents us with a rich and detailed historical fantasy featuring a poisoned king, his five very different daughters, and a land in existential and leadership crisis. Daughters of the Storm is an exceptional epic fantasy adventure kicking off what promises to be a superb series. About the Author Kim Wilkins was born in London, and grew up at the seaside north of Brisbane, Australia. Even with the couple of issues I had, I still thought Daughters of the Storm was an exciting read and I look forward to seeing where Wilkins takes the story next. If you're into strong female characters, with a side of secrets, lies, and betrayal, this is a fantasy world you'll want to immerse yourself in.
