

Download Desert Between The Mountains

Internationally renowned Swiss artist Ugo Rondinone's Seven Magic Mountains is a large-scale site-specific public art installation located near Jean Dry Lake and Interstate 15, approximately ten miles south of Las Vegas, Nevada. Etymology. English desert and its Romance cognates (including Italian and Portuguese deserto, French désert and Spanish desierto) all come from the ecclesiastical Latin d^{er}sertum (originally "an abandoned place"), a participle of d^{er}serere, "to abandon". The correlation between aridity and sparse population is complex and dynamic, varying by ... The constantly high position of the sun, the extremely low relative humidity, and the lack of vegetation and rainfall make the Great Desert the hottest continuously large area worldwide, and the hottest place on Earth during summer in some spots.
