Interra Systems is a global provider of enterprise-class solutions that streamline the classification, QC process, and monitoring of media content across the entire creation and distribution chain. Cadence ® system design and verification solutions, integrated under our Verification Suite, provide the simulation, acceleration, emulation, and management capabilities. A computer is a device that can be instructed to carry out sequences of arithmetic or logical operations automatically via computer programming. Modern computers have the ability to follow generalized sets of operations, called programs.
