

# Download Dinosaur Encyclopedia First Reference

Go back in time with First Dinosaur Encyclopedia. A delightful first reference book about dinosaurs for young paleontologists, this updated edition of First Dinosaur Encyclopedia takes readers on a journey to the prehistoric world of dinosaurs. A collection of fossil dinosaur skeletons. Clockwise from top left: *Microraptor gui* (a winged theropod), *Apatosaurus louisae* (a giant sauropod), *Edmontosaurus regalis* (a duck-billed ornithomimid), *Triceratops horridus* (a horned ceratopsian), *Stegosaurus stenops* (a plated stegosaur), *Pinacosaurus grangeri* (an armored ankylosaur). Bringing young readers into the world of science with gorgeous photography, accessible information, quizzes, fun facts, and more, First Science Encyclopedia is the latest addition to DK's First Reference series, a collection of reference books for children to use at school or home. Record sizes. The sauropods were the largest and heaviest dinosaurs. For much of the dinosaur era, the smallest sauropods were larger than anything else in their habitat, and the largest were an order of magnitude more massive than anything else that has since walked the Earth.
