

# Download Dsdm Business Focused Development

Dynamic systems development method (DSDM) is an agile project delivery framework, initially used as a software development method. First released in 1994, DSDM originally sought to provide some discipline to the rapid application development (RAD) method. In later versions the DSDM Agile Project Framework was revised and became a generic ...AgilePM. The AgilePM® certification helps to support people that need to work in an agile environment. The AgilePM guidance was developed by APMG in partnership with the DSDM Consortium.

### 3.1 Introduction

The DSDM philosophy is that “best business value emerges when projects are aligned to clear business goals, deliver frequently and involve the collaboration of motivated and empowered people.” This is achieved when all stakeholders:

Agile software development is an approach to software development under which requirements and solutions evolve through the collaborative effort of self-organizing and cross-functional teams and their customer(s)/end user(s). It advocates adaptive planning, evolutionary development, early delivery, and continual improvement, and it encourages ...
