Reviewing Earth Science: The Physical Setting by Thomas McGuire is an excellent, comprehensive review book that helps students learn and understand the new New York State Earth Science Curriculum. The timeworn and pedestrian answer is simply "to get to the other side." Here are some creative and original answers: The chicken crossed the road. Read an informational text having to do with taking care of the earth. Students can write to a friend or family member about what they can do to take care of the earth. Philosophy of science is a sub-field of philosophy concerned with the foundations, methods, and implications of science. The central questions of this study concern what qualifies as science, the reliability of scientific theories, and the ultimate purpose of science.
