

Download Energy Networks And The Law

At Select Energy Services, our leadership teams are hands on. No letting the “business run itself” here. And with their in-depth knowledge and experience to guide the company day-to-day, we are not only able to provide our clients with cutting-edge technology and innovation they need; but also give them the edge over their competition as well. On 6/20/2012, the National Assembly voted to adopt the Law on Price (the "LOP") in response to the public demand for an effective legal framework to control price manipulation from dominant enterprises such as gasoline, electricity, etc.
