A diagnosis of kidney disease shouldn't mean you have to settle for boring, bland dinners alone. Kidney Disease (Nephropathy) Kidneys are remarkable organs. Inside them are millions of tiny blood vessels that act as filters. Their job is to remove waste products from the blood. In the United States, approximately one in three adults aged 65 years and older has chronic kidney disease, but the majority of patients with chronic kidney disease do not progress to the advanced stages because death precedes the progression to end-stage renal disease.
