Aerodynamics, from Greek $\alpha\epsilon\rho$ aer (air) + $\delta\upsilon\lambda\alpha\mu\iota\kappa\alpha$ (dynamics), is the study of the motion of air, particularly its interaction with a solid object, such as an airplane wing. Meteorology is a branch of the atmospheric sciences which includes atmospheric chemistry and atmospheric physics, with a major focus on weather forecasting. Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state. Crew Resource Management, Second Edition continues to focus on CRM in the cockpit, but also emphasizes that the concepts and training applications provide generic guidance and lessons learned for a wide variety of "crews" in the aviation system as well as in the complex and high-risk operations of many non-aviation settings.
