Project MKUltra, also called the CIA mind control program, is the code name given to a program of experiments on human subjects that were designed and undertaken by the United States Central Intelligence Agency—and which were, at times, illegal. The examples and perspective in this article deal primarily with the United States and do not represent a worldwide view of the subject. You may improve this article, discuss the issue on the talk page, or create a new article, as appropriate. Short Short Stories. Posted by Tom | Filed under Travel, Writing. The very short stories in this section were all (unsuccessful) entries to travel writing competitions with a 250 or 350 word limit. Last week the Los Angeles Times had an interesting article on new scientific research that claims to have demonstrated that climate change caused the widespread collapse of Bronze Age civilizations in the eastern Mediterranean around 1200 BCE.
