Gears of War: Jacinto's Remnant is the second book in the Gears of War novel series. The novel takes place between Gears of War 2 and Gears of War: Anvil Gate, and bridges the gap between the second game and the third book. The Dropshot is a new weapon in Gears of War 4. It is a modified mining tool that fires an aerial mine/drill bit which floats in a straight line over the battlefield for as long as the trigger is pressed. Gears of War 2 is a third-person shooter video game published by Microsoft Studios. It is the sequel to Gears of War, and was announced by lead designer Cliff Bleszinski during the February 20, 2008 Game Developers Conference.
