Alcoholic fermentation uses enzymes to convert glucose into ATP (which the cell can use to do work) in the absence of oxygen. Alcohol and carbon dioxide are also produced in this reaction. Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. Summary: APA (American Psychological Association) style is most commonly used to cite sources within the social sciences. This resource, revised according to the 6th edition, second printing of the APA manual, offers examples for the general format of APA research papers, in-text citations, endnotes/footnotes, and the reference page.
