

Download Global Challenges In Integrated Coastal Zone Management

In response to the challenges in coastal zone management expressed by West African governments, WACA has mobilized technical assistance and finance in support of existing coastal management initiatives in the region, and to help countries integrate infrastructure and natural resources management in order to enhance their resilience in the face of climate change. Dedicated to Providing Innovative, Environmentally Sensitive, Sustainable & Cost-Effective Solutions. Applied Technology & Management, Inc. (ATM) offers a uniquely integrated, interdisciplinary team of experts comprised of civil and coastal engineers and designers, development professionals, and environmental scientists. The World Bank Group works in every major area of development. We provide a wide array of financial products and technical assistance, and we help countries share and apply innovative knowledge and solutions to the challenges they face. The program below lists all conference program sessions. For more information about additional conference activities, please visit the Networking Functions, Master Classes, Financial Forum, Social Tours, Technical Tours and Young Professionals Program.
