Our Graph Paper The graph paper on our website is available for you to print as many sheets as you want for personal and academic use. We have six different graph paper styles: grid paper, math axis paper, isometric paper, triangular paper, polar coordinate paper and isometric dot paper. Mathletes had fun this week with their coordinate pictures. We introduced all four quadrants in the coordinate plane. (x,y) is the format of each coordinate point, where x is on the horizontal axis and y is on the vertical axis; remember, alphabetically: x comes before y , horizontal comes before vertical, and across comes before up. What is Math Graph Paper? Math graph paper, also known as "axis graph paper" or "Cartesian coordinates paper," is a piece of graph paper with a pre-drawn X and Y axis.
