

# Download Handbook Giftedness Children Psychoeducational Practices

The Special Education guide provides links to such resources as e-books, key article databases, online help tutorials, links to useful websites, RSS news feeds and more for researching and teaching special education. Resumo. A avaliação das altas habilidades embora escassa na literatura científica é de grande relevância dentro da Psicologia. Diante disso, o objetivo deste estudo foi verificar, através da validade de conteúdo, a adequação dos itens que compõem a Escala de Avaliação de Altas Habilidades – Versão Professor. The Stanford–Binet Intelligence Scales (or more commonly the Stanford–Binet) is an individually administered intelligence test that was revised from the original Binet–Simon Scale by Lewis M. Terman, a psychologist at Stanford University. Link Agreement. We believe in link exchanges. If you are a web site owner and would like to have your site included in this list contact us with your address to have your site reviewed.
