A land of staggering natural beauty and cultural complexities, of dynamic megacities and hill-tribe villages, Vietnam is both exotic and compelling. Physiographic units. Four broad topographic units can be simply, yet usefully, distinguished in the continent of Europe. Those are coastal and interior lowlands, central uplands and plateaus, the northwestern highlands, and southern Europe. North Asia. Northeastern Siberia comprises faulted and folded mountains of moderate height, such as the Verkhoyansk, Chersky, and Okhotsk-Chaun mountain arcs, all Mesozoic structures that have been rejuvenated by geologically recent tectonic events. With its rugged natural beauty, ancient ruins and architecture, rich history and vibrant culture, Peru is an unforgettable destination. From deep within the Peruvian Andes rises Machu Picchu, the most spectacular legacy of the Inca Empire.
