

Download Health Care Professionalism At A Glance

In between the 1950's and 1980's the Health care facilities and personnel increased substantially, but gradually due to the fast population growth, the number of licensed medical practitioners per 10,000 individuals had fallen in the 1980's to 3 per 10,000 from the 1981 level of 4 per 10,000. Program Overview. The first program of its kind in Canada, the Honours Bachelor of Health Care Technology Management (BHCTM) degree addresses an identified need in the health care sector for professionals with a hybrid skill set of expertise in medical technology, life sciences and business practices. At first glance, China might seem unlikely to offer useful health care lessons to other countries. But China has undertaken a series of remarkable health system experiments that are instructive at ... Importance Health care spending in the United States is a major concern and is higher than in other high-income countries, but there is little evidence that efforts to reform US health care delivery have had a meaningful influence on controlling health care spending and costs.
