How NASA Builds Teams Mission Critical Soft Skills for Scientists, Engineers, and Project Teams by Charles J Pellerin Charlie Pellerin tells a prescient tale about the day he explained to a workshop about how some people base key decisions on emotions, while others use logic. "I cannot believe anyone would make an informed decision using emotions," says one of the attendees. To which Pellerin ...This "4-D" process has boosted team performance in hundreds of NASA project teams, engineering teams, and management teams, including the people responsible for NASA's most complex systems - the Space Shuttle, space telescopes, robots on Mars, and the mission back to the moon. How NASA Builds Teams explains how the 4-D teambuilding process can be applied in any organization, and includes a fast, free on-line behavioral assessment to help your team and the individual members understand each other and measure the key driver of team performance, the social context.
