Do you want to learn how to draw Pikachu, the most popular of all Pokemon characters amongst boys and girls? I have put together a step-by-step tutorial that will help you figure out how to draw Pikachu by using simple shapes to build up Pikachu's form. Step 1: To draw Pikachu, start with a vertical rectangle with rounded corners. Draw this shape on the right side of the paper to make room for Pikachu's tail. This will be the basic shape for his head and body. Step 6: Draw two tilted U shapes on either side of the vertical line beneath the center horizontal line to create Pikachu's arms. Under his body on either side, draw two triangle shapes that point outward for his feet.
