

Download How To Make A Rope Swing

To make a rope swing, first cut 1 long piece of wood for a seat and 2 short pieces for supports, and nail the supports underneath the sides of the seat. Then, drill 2 holes in each end of the seat and thread a 5-foot rope through the holes on each end. Tie knots in the rope under each hole, and attach a carabiner to the top of each rope. Next, use double-bowline knots to secure 2 long pieces ...How to Make a DIY Rope Swing for Kids. I drilled a one-inch diameter hole in the same spot and then stained the seat with a natural Minwax stain.How to Make a Rope Swing from Scratch: Instead of buying a rope swing kit, you can make your own rope swing from scratch. This enables you to choose the size, shape and color of the seat.
