YEAR 11 TERM 1: What is the Matter This unit is an introduction to the course of Chemistry. Fundamental concepts related to atoms, compounds, formulas, physical and chemical properties and the periodic table are introduced. Molar concentration (also called molarity, amount concentration or substance concentration) is a measure of the concentration of a chemical species, in particular of a solute in a solution, in terms of amount of substance per unit volume of solution. The timeworn and pedestrian answer is simply "to get to the other side." Here are some creative and original answers: The chicken crossed the road. Chemistry CP provides students with a comprehensive study of the nature of matter and the changes it undergoes. This course is appropriate for most college bound students.
