"In Between the Sheets" tells of a father's suspicions about his teenage daughter's relationship with her older midget girl-friend. "To and Fro" "Psychopolis" tells of a British traveller's growing sense of ennui as he travels across America, culminating in an unusual dinner party. In Between the Sheets is Ian McEwan's second short story collection, after First Love, Last Rites - both published early in his career, in 1975 and 1978, and both containing very dark and disturbing literary experiments. "In Between The Sheets", was published in 1978 following two very highly prized and one award-winning book by Mr. McEwan. I have become a great admirer of his more recent work so; I had gone back to read some of his earliest published books including this collection of short stories. The book is physically small and brief at 153 pages, and what it contains even less of is substance. Overview. Call them transcripts of dreams or deadly accurate maps of the tremor zones of the psyche, the seven stories in this collection engage and implicate us in the most fearful ways imaginable.
