Justice League: Cry for Justice is a seven-issue comic book limited series, written by James Robinson, drawn by Mauro Cascioli, and published by DC Comics in 2009. The Justice League is a team of fictional superheroes appearing in American comic books published by DC Comics. The Justice League was conceived by writer Gardner Fox, and they first appeared together, as Justice League of America (JLA) in *The Brave and the Bold* #28 (March 1960). Cry for Justice was good. I know there are a lot of mixed reviews and people found it cheesy that they would say "justice", but they didn't say it all that often. Cry for Justice is an interesting story, but the team that forms just sit well in how it comes to be. Instead of an organic team that builds as Brad Meltzer did in his first 6-issue run of Justice League of America, this team feels like the only reason they came together is because James Robinson really likes the characters.
