

Download Koreana Autumn 2013 English

Forsythia (/ f ɔːr s i / or / f ɔːr s a i /) is a genus of flowering plants in the olive family Oleaceae. There are about 11 species, mostly native to eastern Asia, but one native to southeastern Europe. Forsythia is also one of the plant's common names, along with Easter tree; the genus is named after William Forsyth. Platycodon grandiflorus (from Ancient Greek ?????? "wide" and ????? "bell") is a species of herbaceous flowering perennial plant of the family Campanulaceae, and the only member of the genus Platycodon. Nina Ricci launches a new version of the Nina perfume from 2006 called Nina L'Eau. The new fragrance comes out in late January 2013. Romantic and subtle, fresh fruity and aquatic, Nina L'Eau opens with refreshing notes of apple, grapefruit, mandarin and neroli. Koreas historie begynder med grundlæggelsen af Joseon (også kendt som "Gojoseon" eller Gamle Joseon, for at adskille det fra et dynasti i 1400-tallet) i 2333 f.Kr. af Dangun, ifølge Koreas grundlæggelsesmytologi.
