Language and Reflection: An Integrated Approach to Teaching English. Gere, Anne Ruggles; And Others This book asks teachers to examine their beliefs about language, the beliefs of other educators, and the implications of those beliefs for English classes, where the primary goal is to foster language development through reading, writing, listening, and speaking. While this may be an older text (1992), it was an effective overview of theoretical approaches to teaching English. I read this for EDU 431 at the Graduate level with Dr. Callahan at the University of Rochester. Almost 11 years later, this text comes in handy in my teaching and learning practices.
