Mistress of the Sun is a novel based on the life of Louise de la Vallière, who, against all odds, became one of the most mysterious consorts of France's Louis XIV, the charismatic Sun King. Sandra Gulland is as deft a writer as she is a historian and the tale she weaves with "Mistress of the Sun", while perhaps not wholly original, was certainly worth the time it took to read and ultimately left me feeling a little better informed about the era than when I started. Set in seventeenth century France, Mistress of the Sun is an opulent treasure of a historical novel. In it, author Sandra Gulland pulls off a difficult balancing act: The novel is both impeccably researched and gorgeously written. Sandra Gulland.
