

Download Model Behavior Volume Three

3 core motivators, each with two sides My Behavior Model highlights three Core Motivators: Sensation, Anticipation, and Belonging. Each of these has two sides: pleasure/pain, hope/fear, acceptance/rejection. In 1986 I made a computer model of coordinated animal motion such as bird flocks and fish schools. It was based on three dimensional computational geometry of the sort normally used in computer animation or computer aided design. A groundbreaking synthesis of developmental, relationship-based, and skill-based approaches, The SCERTS® Model provides a framework for improving communication and social-emotional abilities in preschool and primary school students with autism spectrum disorders (ASD) and their families.
