

# Download My Past Life As A Dung Beetle

Dr. Cara Judea Alhadeff superbly weaves a compelling message using the timely and imperative threads of environmental and social justice in this enchanting story *Zazu Dreams: Between the Scarab and the Dung Beetle, A Cautionary Fable for the Anthropocene Era*. So-named for its three bull-like horns, the Minotaur Beetle is a large dung beetle found on grassland and heathland from the autumn. Adults drag dung back to their nests for their larvae to feed on. Although scarab amulets were sometimes placed in tombs as part of the deceased's personal effects or as jewelry, generally they have no particular association with ancient Egyptian funerary rites. Female Multi-colored Asian Ladybug Beetle, Durham, 7/13/06. Durham, 11/4/05. This female Multi-colored Asian ladybug quickly freed herself from this spider web by somehow causing the strand it was on to lengthen and weaken.
