

Download Nadca Product Specification Standards For Die Castings Part 9

2018 Product Specification Standards for Die Castings Description: This manual covers specification, design and production guidance for both users and manufacturers of conventional high pressure die castings. Information on these processes and alloys can be found in the Product Specification Standards for Die castings produced by Semi-Solid and Squeeze Cast Processes (NADCA Publication #403) and the High Integrity Die Castings book (NADCA Publication #404). Information on these processes and alloys can be found in the Product Specification Standards for Die castings produced by Semi-Solid and Squeeze Cast Processes (NADCA Publication #403) and the High Integrity Die Castings book (NADCA Publication #404). This manual covers specification, design and production guidance for both users and manufacturers of conventional high pressure die castings. The manual presents tooling and processes information, alloy properties, standard and precision tolerances, GD&T, design guidelines, quality assurance provisions and more.
