

Download Natural Selection Virtual Lab Answer Key

“I used The Lizard Evolution Virtual Lab as we researched the concepts of evolution and natural selection in my 10th grade biology class. The Lizard Evolution Virtual Lab applies central concepts and vocabulary to a real-life scenario to provide students an experience in doing real science. The Stickleback Evolution Virtual Lab will introduce you to the science and techniques used to analyze the forms and structures of organisms—in particular, the pelvic structures of the threespine stickleback fish (*Gasterosteus aculeatus*). The lab includes three experiments in which you will Labs. Simulate natural selection with the "Candy Dish Selection" lab. Introduce the Hardy-Weinberg principle of gene frequency equilibrium with this "Breeding Bunnies" lab. Materials needed. Day 1 (*) Print out your First Quarter Grading sheet or use the Excel version. Keep in mind that your success in Biology will be directly proportional to the amount of effort you invest.
