

# Download Natural Solutions To Kill Roaches

Planet Natural has been offering safe, effective natural pest controls since 1991. Our goal has always been to suggest proven techniques and supply products that work while having the least impact on the environment as possible. Natural Insect Pest Control for the home: safe, non-toxic methods for controlling ants, cockroaches, fleas, dust mites, wasps, flies, mosquitoes, and many common household insect pests. When roaches begin to invade the home, it can become a little disheartening trying to get rid of them. Arming yourself with the best roach killer is going to make the difference between failure and success. Confirm That You Have Drywood Termites. The presence of dark fecal pellets is an indication that you have drywood termites. Drywood termites remove their fecal pellets from their colony so it will eventually accumulate and pile up outside the infested area.
