

# **Download New Economic Policies For A New India**

NEW DELHI, May 29, 2017 – India remains the fastest growing economy in the world - economic fundamentals are strong, and reform momentum continues. The New Deal was a series of programs, public work projects, financial reforms and regulations enacted by President Franklin D. Roosevelt in the United States between 1933 and 1936. The economic history of India is the story of India's evolution from a largely agricultural and trading society to a mixed economy of manufacturing and services while the majority still survives on agriculture. With environmental threats on the rise, how can we attain both economic and environmental challenges in a global economy? Less stringent policies give an advantage to more pollution-intensive production, but at the expense of less polluting industries.
