Candace, I just discovered Kirsten O'Shea's Universe, and I've been devouring the books over the past couple of weeks. But I feel like I'm missing little pieces here and there. Book three of the Only Human urban fantasy series... When Aaron finally locates the human who wields light-weapons similar to Kirsten's, her quiet family life is once again disrupted as she's dragged into another fearsome clash of vampires, shapeshifters, and not-so-mythological gods.
