

Download Oracle 10g Data Guard Documentation

Enter your mobile number or email address below and we'll send you a link to download the free Kindle App. Then you can start reading Kindle books on your smartphone, tablet, or computer - no Kindle device required. Delete (remove) the Oracle Database 9 i Release 2 (9.2) broker configuration. For example, the DGMGRL REMOVE CONFIGURATION command can be used. To perform the deletion you must use Oracle Data Guard Manager or DGMGRL running on Oracle Database 9 i Release 2 (9.2). 20/34 12 Data Guard Scenarios. This chapter describes scenarios you might encounter while administering your Data Guard configuration. Each scenario can be adapted to your specific environment. Question: The Oracle marketing people are at it again, and I noticed that within Oracle 11g "active" data guard is an extra cost option! In Oracle 10g, there was no distinction between an "active" data guard and an inactive one, so I wonder if Data Guard costs extra in Oracle 11g?
