Pyrenees Mammals Mammals of the Pyrenees. The Pyrenees are home to a variety of mammals, with many native species unique to the Pyrenees. The Pyrenees are home to the Pyrenean Desman (*Galemys pyrenaicus*), Pyrenean Chamois (*Rupicapra pyrenaica pyrenaica*) and Pyrenean Brown Bear (*Ursus arctos*). The trope may also be justified by the characters being from a culture where shoes aren't seen as a social requirement, such as with J. R. R. Tolkien's hobbits, or are from a civilization that Does Not Like Shoes. How I compared scapulas (shoulderblades) from eleven different animals from my collection, including hedgehogs, squirrels, foxes, red deer, rabbits, otters, sheep ... The brown bear (*Ursus arctos*) is a bear that is found across much of northern Eurasia and North America. In North America the population of brown bears are often called grizzly bears.
