

Download Photophysics Of Organometallics

Packaging 250 mL in glass bottle Application Building block for a new series of mixed zirconium phosphonates which may have uses in catalysis, ion exchange or photophysics. Technical Service: Our team of scientists has experience in all areas of research including Life Science, Material Science, Chemical Synthesis, Chromatography, Analytical and many others. Date 2-Aug 4-Aug Floor Room Code Cap 09:40-12:15 14:25-18:35 09:40-12:15 14:25-18:35 09:40-12:15 09:40-12:15 14:25-18:35 09:40-11:45 S60 Platina Sponsor S60 Bioimaging, analysis and diagnostics. Convenor: Andrew de Mello. Single molecule fluorescence, high-resolution biomolecular and cellular imaging, single cell DNA and RNA sequencing and diagnostics, point of care and third world diagnostics, nanoconstructs for diagnostic applications, biomarker-based diagnostics.
