

# Download Planning A Life In Medicine

Life care planning is an advanced collaborative case management specialty practice focused on assessing, evaluating, coordinating, consulting, planning for, and monitoring necessary services for individuals with complex medical care needs over their lifetime. Pediatric Life Care Planning and Case Management provides a comprehensive and unique reference that goes beyond the clinical discussion to include legal and financial aspects, life expectancy data, and assistive technology. We are physician life care planners in a field in which less than 1% of life care planners are qualified physicians. As practicing M.D.s who specialize in Physical Medicine & Rehabilitation, we possess the Introduction. Patients are entitled to receive quality end-of-life care that allows them to live as well as possible until they die. Physicians have an important role to play in planning for and providing quality end-of-life care.
