

Download Proceedings The Second Aaii Conference On Human Computation And Crowdsourcing

Human Computation and Crowdsourcing: Works in Progress and Demonstration Abstracts An Adjunct to the Proceedings of the Second AAAI Conference on Human Computation and Crowdsourcing (Nonarchival) Technical Report CR-14-01 Sponsored by the Association for the Advancement of Artificial Intelligence. The HCOMP conference was created as a venue for exchanging ideas and developments on principles, experiments, and implementations of systems that rely on programmatic access to human intellect to perform some aspect of computation, or where human perception, knowledge ...Proceedings, The Third AAAI Conference on Human Computation and Crowdsourcing (HCOMP-15) 42. the performance of KOS generally gets worse with increasing number of inference iterations. We describe two variations of the beta-shaped belief function update, which we call the harmonic and the parameter estimation algorithms. The harmonic update is a simple update equation that aims at limiting ...Björn Hartman and Eric Horvitz, Conference Chairs. November 7–9, 2013, Palm Springs, California. Published by The AAAI Press, Palo Alto, California. This technical report is available in book format.
