

# Download Process Technology Safety Health And Environment

Safety, Health, and Environment is designed to teach readers about the various safety, health and environmental issues associated with the process industries. This informational booklet is intended to provide a generic, non-exhaustive overview of a particular standards-related topic. This publication does not itself alter or determine compliance responsibilities, which are set forth in OSHA standards themselves and the Occupational Safety and Health Act. Process safety management is a regulation promulgated by the U.S. Occupational Safety and Health Administration (OSHA). A process is any activity or combination of activities including any use, storage, manufacturing, handling or the on-site movement of highly hazardous chemicals (HHCs) as defined by OSHA and the Environmental Protection Agency. API & AFPM Advancing Process Safety. The refining and petrochemical manufacturing industries are committed to protecting the health and safety of our workers, our contractors and our neighbors as well as the environment in which we operate.
